

Gem County Rod & Gun Club Meeting Minutes

July 9th, 2018

Directors Present: Dean Wells, Larry Robertson, Chad Taylor, Caleb Hoobery

Officers Present: President Russell Trebby, Treasurer Shannon Wells, Secretary Jim Bunting

Meeting was called to order at 7pm by President Trebby.

No corrections in June 2018 Board of Directors minutes. Motion was made to approve June 2018 minutes by Director Hoobery and seconded by Director Robertson.

Treasurers Report: Shannon Wells reports-- Checking \$3342.80, (Property) Savings \$61,954.36, (Bridge) Savings \$38,344.26.

GCRGC membership is 1164.

Shannon Wells reports people are sending her checks for their membership without printing the application.

Member Concerns: Ace Firearms Training (Armed Citizens Education) was found to have left the gate open during their training session. Five trespassers had come through the gate to look around and were asked to leave by Secretary Jim Bunting. When told by Secretary Jim Bunting that they needed to post someone at the gate to check membership cards or lock it; the instructor informed him they were told they could do so (leave the gate open) by a director of the board. More investigation is needed and possibly re-educating the trainers on the current regulations of the club.

Range Status: Shippy has completed the necessary work on the firebreak. David Shaw had got with Shippy for some input on the work that needed to be done.

President Trebby reports that the transformer and coil of wire are present at the range for the power to the gun range project. Several contractors were

contacted for the 20' pole, 200 amp service and interrupter needed. Bud's was the only contractor seriously interested in the job. Mackie electric was contacted but was not very interested in doing the job. President Trebby stated that Bud's will give more material at a better price with pole included. Director Caleb Hoobery said he thought it was a really good deal for the clubs money. **Motion:** Director Larry Robertson makes a motion to have Bud's electric contracted for the electrical plus 20' pole job. Motion is seconded by Director Dean Wells and motion carries.

President Trebby reports that between rifle bays 4-5 we have a water runoff problem that is out of control. He also talked to Shippy about three other spots that need immediate attention. Shippy wants to use road mix but we can also go with 2 yards of gravel for a cost of repair of \$400. **Motion:** Director Caleb Hoobery makes a motion for the \$400 job to Shippy to repair all four spots on the range that were damaged by water runoff. Director Dean Wells seconds the motion and it carries.

Alcohol consumption at the range: Director Caleb Hoobery stated he wanted to let the county sheriff's office know about the situation of some party activity and the range during after hours. Director Wells states that once they know we are watching it should stop.

GCRGC Website: Treasurer Shannon Wells stated that she found a reputable company for hire to help solve the website problems. Our volunteer Fred Woodridge has been doing a great job but cannot commit the time necessary to complete what needs to be done (replacing modules). There is a domain problem as well because it is under the name of a board of director who is no longer on the board. Once fixed Director Caleb Hoobery stated he would like to hire someone to maintain the site to ensure the professionalism of the club. Treasurer Shannon Wells stated that in just 45 days we can except applications for membership so this makes the problem urgent.

Adjourn: Motion to adjourn the July 9th, 2018 GCRGC Board of Directors meeting is given by Director Hoobery and seconded by Director Wells. Motion to adjourn carries.
