Secretary Jim Bunting states he was at the range when it was raining hard and the new drainage system was working well. Secretary Bunting also reports that there are some cracks in the cement drainages already and an eye should be kept on them. The total project cost should be around \$30K after some more road mix is brought to the range. Director Shannon Wells states that seems low considering all the hand mixing of cement that had to be done on the project.

**Safety tables:** President Treby states that new gun safety tables would be a good idea for the pistol ranges but the current plans may be a little over the top.
