Range Status: President Albaugh reports that a skid steer has been busy all day today (February 9th) re-graveling all the pistol bays. The pistol bays should be good now for a very long time. There have been four truckloads of gravel delivered and the range will need another four. Each truck load is 5 yards of gravel because that is all the weight the gun range bridge can handle. All the backings on the rifle ranges are up and functional. Internet is being established at the range in order to run the electric gate which is in the process of being installed as well as the security cameras. President Albaugh discusses

getting a new phone number for the Club. A phone number that can be transferred from one phone to another depending on who is on phone duty.
