Members Concerns
Russ Escalara - Requesting calendar and scheduling updates for Wild Bunch. Calendar has been updated with their current events.

Jim Lawrence - Black Powder Match Report. Jim has taken over the match from Greg Kershul. Jim is coordinating the event.. Match fees of $98 transferred to President Albaugh for deposit to the club checking account.

Range Status - President Albaugh
Range use remains extremely high, great weather and hunting season has everyone out enjoying the range. Director Kaczmarek reports a couple of backers on the rifle range need to be replaced

Front Gate Update - President Larry Albaugh
Construction and site work will begin later this month pending final approval of expenses. Pending approval, we will begin site clean up, installation of the Bollard/Key Pad outside the gate, and complete the installation of necessary conduit for the gate and cameras. A Steel Challenge competitor is a licensed Electrical Contractor and has agreed to pull the required permit and oversee the installation and inspections process.

Several purchases/approvals are required and the information will be sent out to all Directors and Officers to vote on so work can begin.

Range Signs - Final Draft of signs has been presented. Each sign will cost $28, each post $6, and misc fasteners approximately $20

Member Issue - Recently a member requested access to the range for training. He was told that type of activity was currently on hold and the request was not approved. On the date in question the member was found at the range, proceeding with the unapproved training. It was also noted that he was carrying a loaded pistol at the front gate. When advised that the GCRGC Inc was a Cold range he denied such a rule existed. One of his guests proceeded to unbag and handle his pistol at a table behind the firing line while other members were downrange of his position and walking around. Member to receive Revocation letter
